Romantic Anniversary Bedroom

[Designer Finals : Episode HDSF-310](#) -- [More Projects »](#)

Before: Instead of an exotic vacation for their 25th anniversary, the Vassellis are looking forward to a brand new master bedroom. After all those years, it's time for the floral patterns to go!

After: A partition wall enables the new bed to be turned, which opens up the space. The sophisticated color palette including purple, copper and gray is a complete change from the previous blue and yellow scheme and the homeowners love it.

Before: This furniture is as old as the couple's marriage and they're anxious for a change.

After: Since a fireplace wasn't possible, a small mosaic-covered area with candles serves as a tranquil spot to spend time.

Anne and Frank Vasselli are celebrating 25 years of marriage with the redo of their outdated master bedroom. They're in for a treat as student designer Nina Pierce has agreed to add romance to the space. Pierce plans to take their floral room and make it a serene masterpiece complete with a computer wall, meditation area and a handmade duvet and pillows.

crackle bud vases (Mimosa), 3-in-1 copper planter, gold votives with tray, bed frame (Queen Finley) (Bombay Company) ceiling fan (Home Depot)
